It was a matter of deliberate design to create a "new signature shape" for the XO Collection. One Collection. Five Chairs. Harmonic design and individual function. The first ergonomic mesh chair collection that provides real choice - form and function - without sacrificing comfort or quality. REVOLUTIONARY. PATENTED.

### >> multiple applications

The XO Collection eloquently expresses its function and coordinates with a variety of environments. W.R. Breen designed the XO Collection to be used in workstations, private offices, conference rooms, team areas, or community spaces - in business and learning environments.
