How To Care For Your IC2

With regular care and maintenance, your IC2 will provide many years of superior performance and satisfaction. To maintain the quality of your Nightingale product, please follow the cleaning procedures outlined here.

Mechanism

Once a year lubricate using WD40 or similar product. (Spray with plastic straw attached to sprayer) **NOTE:** To prevent dripping, avoid over lubrication which may cause damage to surrounding surfaces.

NEBULA™ Mesh

Clean with mild detergent and water applied with a clean damp cloth or sponge. Rinse with a damp (water) cloth and let dry. Never use hot water and avoid scrubbing. Use gentle movements.

Plastic parts

To clean spray with a mild detergent and wipe off using a damp (water) cloth. Do not use abrasives or excessive amounts of cleaner.

Frame

Powder coat frames can be cleaned by wiping with a damp cloth and any mild detergent.

* The instruction for the care and maintenance of Nightingale Products are provided to you as a service. No warranty is implied since results may vary.
